

**SECTION 6. EMISSIONS REPORTING - WHEN REQUIRED**

- (A) Every source subject to a permit requirement under Section 5 or Section 17 of these Regulations and Standards shall complete and submit to the Department an annual emissions inventory on forms furnished by or acceptable to the Department by March 31, and shall include emission information for the previous calendar year. This requirement applies whether or not a permit application has been filed or a permit issued. The inventory form shall be certified in accordance with Section 7, paragraph (h) of these Regulations and Standards.
- (B) The annual emissions inventory form shall include the following information:
- (1) The source's name, description, mailing address, contact person and contact person phone number, and physical address and location, if different than the mailing address.
  - (2) A description of the existing or proposed facilities, modifications or operations including all processes employed; normal hours of operation; the nature and amounts of fuel and other materials involved; the probable nature, rate of discharge, and time duration of contaminant emissions; any such other information as is relevant to air pollution control and available or capable of being assembled in the normal course of operation; and, if required by the Director, ambient air quality and meteorological data.
  - (3) The actual quantity of emissions, including documentation of the method of measurement, calculation or estimation, of:
    - (a) Any single regulated non-hazardous air pollutants in a quantity greater than one ton.
    - (b) Any single regulated hazardous air pollutant in a quantity greater than the reporting level listed in Appendix III.
    - (c) Any combination of regulated non-hazardous air pollutants or any combination of regulated hazardous air pollutants in a quantity greater than 2.5 tons in each case.
- (C) Actual emissions as defined in Section 1 of these Regulations and Standards shall be calculated using one of the following methods, as appropriate:
- (1) Any test method or procedure identified in Section 34 of these Regulations and Standards;
  - (2) Continuous emission monitor (CEM) data, provided that:
    - (a) The CEM operation is, and has been for the reporting period, in compliance with all applicable requirements under the Act;
    - (b) The total operating time of the applicable emission unit and the CEM are included in the inventory report; and
    - (c) The report includes an explanation of how the emissions were calculated using CEM data.
  - (3) Any applicable method identified in the Compilation of Air Pollutant Emission Factors, Volume I, Stationary Point and Area Sources, Fifth Edition;
  - (4) Any applicable method identified in Factor Information Retrieval System Version 5.0 Source Classification Codes and Emission Factor Listing for Criteria Air Pollutants, EPA-454/R-95-012, August 1995; or
  - (5) A material mass balance equation.
- (D) Except as otherwise provided in (C) above, any other test methods and procedures for use in determining Actual emissions must be approved by the Director.
- (E) The Director may require the submittal of supplemental information to verify or otherwise assure the quality of emissions reported.
